The Biology of Consciousness: Case Studies in Kundalini

By Jj Semple

Life Force Books, United States, 2014. Paperback. Book Condition: New. 213 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****. The Biology of Consciousness: Case Studies in Kundalini examines the notion that consciousness exists outside the body and actually drives evolution by what Gopi Krishna called the evolutionary impulse. The book examines the arguments for and against God, making clear that there is very little evidence to support either side, but there is a large body of evidence that supports the notion of an energy continuum brought into being by an all-pervasive consciousness. The nouveau atheists (Stephen Hawking, Richard Dawkins, Christopher Hitchens, Sam Harris) cross swords with the proponents of intelligent design (William Dembski, Michael Behe, Jonathan Wells) over God vs. No God. The argument between atheism (No God) and intelligent design (God) is the wrong argument. Each represents a reductionist extreme too far out of range to prove or disprove. However, there is a pragmatic middle ground related to this subject that s easily summed up by the following language: There is proof that a metaphysical dimension, or energy continuum, exists, that an all-encompassing consciousness, not an anthropomorphic figure, residing somewhere above our heads,...
