Integrating Therapeutic and Complementary Nutrition: Complementary and Alternative Practices

By -

CRC Press Inc. Hardcover. Book Condition: New. Hardcover. 634 pages. Dimensions: 10.0in. x 7.2in. x 1.6in. Consumers look to health professionals for guidance on how to integrate complementary and alternative (CAM) therapies into their lifestyles, yet most health care professionals are trained only in conventional practices. Integrating Therapeutic and Complementary Nutrition provides the scientific foundation necessary to understand CAM nutrition practices and how they are being integrated into conventional care. Working within a framework that examines complementary and alternative therapies alongside conventional nutrition practice, the authors examine controversial issues surrounding CAM practice. Integrating Therapeutic and Complementary Nutrition replaces popular myths with fact based and verifiable information from nutritionists, professors, researchers, and industry professionals. Each chapter describes in detail the underlying process involved in both healthy function and dysfunction of each organ system and disease state to provide the necessary background for the comparison, contrast, and conjunction of conventional and alternative therapy. Paying particular attention to determining which therapies might be appropriate for which conditions, including which supplements, in what amounts and from which manufacturers, this book uses scientific data, considered opinions and case studies to weed out the beneficial from the harmful. While aware that there are unanswered questions exist.

Reviews

An exceptional ebook along with the font applied was interesting to read through. it was actually writtern really completely and beneficial. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Mr. Hector Cole Jr.**

This written pdf is wonderful. It can be writter in easy phrases and not difficult to understand. Your lifestyle span will likely be enhance once you full looking over this ebook.
